Quality Based Selection Process

Introduction and Purpose

These policies and procedures are established as a guide for the preparation, execution and administration of contracts for professional or specialized engineering services that exceed \$40,000 and which are executed in connection with the planning, design, maintenance, repair, and construction of transportation in accordance with the Brooks Act (40 U.S.C. 1101 - 1104), the Illinois Local Government Professional Services Selection Act (50 ILCS 510), and 23 Code of Federal Regulations Part 172 entitled "Procurement, Management, and Administration of Engineering and Design Related Services". The \$40,000 limit shall be increased annually by a percentage equal to the annual unadjusted percentage increase, if any, as determined by the consumer price index-u in accordance with 50 ILCS 510/8 using 2019 as the \$40,000 base year. IDOT shall issue a circular letter annually addressing the CPI-U adjustment. This letter shall be typically issued in February of each year.

The implementation of these procedures will ensure that a qualified Firm is obtained through an equitable selection process and that the prescribed work is properly accomplished in a timely manner and at a fair and reasonable cost.

Jackson County, as a direct recipient and/or sub-recipient of Federal Aid Highway Funds, must comply with all applicable rules and regulations pertaining to the use of said funds. Therefore, Jackson County agrees to maintain written policies and procedures for the procurement, management, and administration of professional and specialized engineering services contracts, including those related to planning, studies, environmental analyses, engineering and design to the extent that engineering services are specified in the scope of work. Our written policies and procedures as describe herein for QBS will meet the requirements of 23 CFR 172 and the Brooks Act.

Certification and Prequalification

Jackson County is committed to ensuring that all qualified firms have the opportunity to participate in professional and specialized engineering services contracts.

Prequalification

IDOT maintains a List of Prequalified Private Consulting Firms (The Directory of Firms) that have been approved to perform professional or specialized services. Firms must be prequalified to perform the specific discipline of work or service it will be performing on a project for Jackson County. Prequalification by IDOT does not relieve the Firm of responsibility for determining if sub-consultants they may select are, in fact, qualified to perform the work for which it is engaged.

A Firm is required to be prequalified prior to submitting its Letter of Interest for any advertised project.

Procurement Methods

The procurement of professional and specialized engineering services funded by either State or Federal Aid Highway Program funds shall be conducted in accordance with one of three (3) methods:

1. Competitive negotiation (qualifications-based selection) procurement.

Jackson County will use a competitive negotiation method for the procurement of engineering and design related services when either State or Federal Aid Highway Program funds in excess of \$40,000 are involved in the contract. The \$40,000 limit shall be increased annually by a percentage equal to the annual unadjusted percentage increase, if any, as determined by the consumer price index-u in accordance with 50 ILCS 510/8 using 2019 as the \$40,000 base year. IDOT shall issue a circular letter annually addressing the CPI-U adjustment. This letter shall be typically issued in February of each year. The solicitation, evaluation, ranking, selection, and negotiation will comply with the qualification-based selection procurement procedure outlined below for selection of architectural and engineering services.

The only exception would apply when State, TBP and Local Funding will be utilized for engineering services and Jackson County has a previous existing relationship with any firm that performs work in areas that are desired.

2. Non-competitive procurement – EMERGENCY CONDITIONS

When an emergency occurs, these procedures, or portions thereof, may be waived by the County Board Chair or his/her designee. In an emergency, a professional/specialized Firm may be selected, negotiations conducted, and a contract executed at the direction of the County Board Chair or designee as necessary to address the emergency conditions. When Federal-Aid Highway funds are used in the contract, the County Engineer or designee shall submit justification for emergency selection and receive approval from FHWA before proceeding with the procurement of services, if required by FHWA.

3. Non-competitive procurement – SOLE SOURCE

These procedures, or portions thereof, may be waived by the County Engineer, or his/her designee, for the sole source selection of a Firm under any of the following conditions:

- a. Sole source selection may be used when the service is available only from a single source;
- b. Sole source selection may be used after solicitation of a number of sources, competition is determined to be inadequate; or
- c. Sole source selection may be used when it has been determined that there is an emergency which does not permit time to conduct contract negotiations.

Sole source selection may only be used when it is in the public interest and economically advantageous to the County. Selection of a sole source Firm will be contingent upon satisfactory negotiation for the service.

When Federal Aid Funds are involved, the County Engineer must submit justification for sole source selection and receive approval from IDOT and/or FHWA prior to proceeding, if required by IDOT/FHWA.

General QBS Procedure

The following will be the guiding procedures Jackson County will follow in their qualification based selection of engineering service firms as defined in Procurement Method #1 listed above.

1. **Initial Administration** – Jackson County's QBS policy and procedures assigns responsibilities to the following: the County Engineer within the Jackson County Highway Department for the procurement, management, and administration for consultant services.
2. **Written Policies and Procedures** – Jackson County believes their adopted QBS written policies and procedures substantially follow Section 5-5 of the *BLRS Manual* and specifically Section 5-5.06(e), therefore; approval from IDOT is not required; however, if fewer than three consultants submit letters of interest, IDOT approval is required.
3. **Project Description** – Jackson County will use the following five items when developing the project description and may include additional items when unique circumstances exist.
 - Describe in general terms the need, purpose, and objective of the project;
 - Identify the various project components;
 - Establish the desired timetable for the effort;
 - Identify any expected problems;
 - Determine the total project budget.
4. **Public Notice** – Jackson County will post an announcement on our website and/or publish an ad in a newspaper with appropriate circulation. The item will be advertised for at least 14 days prior to the acceptance of proposals, and at least twice in the newspaper and/or on continuous display on our website.
5. **Conflict of Interest** – Jackson County requires consultants to submit a disclosure statement with their procedures. Jackson County requires the use of the IDOT BDE DISC 2 Template as their conflict of interest form.
6. **Suspension and Debarment** – Jackson County will exercise the use of SAM Exclusions, IDOT's CPO's website and the three other state CPO's websites to verify suspensions and debarments actions to ensure the eligibility of firms short listed and selected for projects.
7. **Evaluation Factors** – Jackson County allows the following County Engineer to set the evaluation factors for each project, but must include a minimum of five (5) criterion and stay within the established weighting range.

Project specific evaluation factors will be included at a minimum in the Request for Proposals.

Technical Approach (10-30%)

Firm Experience (10-30%)

Specialized Expertise (10-30%)

Staff Capabilities (Prime/Sub) (10-30%)

Work Load Capacity (10-30%)

Past Performance (10-30%)

In-State or Local Preference *

*Participation of Qualified and Certified DBE Sub-Consultants **

(The combined total of these two items cannot exceed 10%)*

8. **Selection** – Jackson County require a three person selection committee. Typically the selection committee members include the County Engineer, the Engineering Assistant and a representative of the Real Property Committee of the County Board. The selection committee members must certify that they do not have a conflict of interest. Selection committee members are chosen by the County Engineer for each project and may change from time to time. Jackson County will require each member of the selection committee to provide an independent score for each proposal using the criteria established for that selection.

The selection committee members' scores are averaged for a committee score which is used to establish a short list of three firms. The committee score may adjusted by the committee based on

group discussion and information gained from presentations and interviews to develop a final ranking. If there are other firms within 10% of the minimum score, the County Engineer may elect to expand the short list to include more than three firms.

9. **Independent Estimate** – Jackson County will prepare an independent in-house estimate for the project prior to contract negotiation. The estimate is used in the negotiation.
10. **Contract Negotiation** – Jackson County require a three person team to negotiate with firms. Typically, the team will consist of the County Engineer, the Design Engineer and a representative of the Real Property Committee of the County Board. Members of the negotiation team may vary dependent upon the work load that exist at the time of selection.
11. **Acceptable Costs** – Jackson County require the County Engineer to review the contract costs and the indirect cost rates to assure they are compliant with Federal cost principles prior to submission to IDOT.
12. **Invoice Processing** – Jackson County requires the County Engineer on any projects using federal funds to review and approve all invoices prior to payment and submission to IDOT for reimbursement.
13. **Project Administration** – Jackson County requires the County Engineer to monitor work on the project in accordance with the contract. Jackson County's procedures require an evaluation of the consultant's work at the end of each project. These reports are maintained on file with the Jackson County Highway Department office. Jackson County follows IDOT's requirements and the required submission of BLRS Form 05613 to the IDOT district at contract close-out along with the final invoice.

CONSULTANT'S DISCLOSURE STATEMENT

PTB #: _____

Firm Name: _____

RETURN WITH STATEMENT OF INTEREST

DISCLOSURES

- A. The disclosures hereinafter made by the firm are each a material representation of fact upon which reliance is placed should the Department enter into the contract with the firm. The firm further certifies that the Department has received the disclosure forms for each statement of interest.

The IDOT Chief Procurement Officer (CPO) may void the offer or contract if it is later determined that the firm or subconsultant rendered a false or erroneous disclosure. A consultant or subconsultant may be suspended or debarred for violations of the Procurement Code. If a false certification is made by the subconsultant, then the consultant's submitted offer and the executed contract may not be declared void, unless the consultant refuses to terminate the subcontract upon the State's request after a finding that the subconsultant's certification was false.

B. Financial Interests and Conflicts of Interest

1. Section 50-35 of the Illinois Procurement Code provides that all offers of more than \$50,000 and all subconsultant agreements with an annual value of more than 50,000 shall be accompanied by disclosure of the financial interests of the firm. This disclosed information for the successful firm will be maintained as public information, subject to release by request pursuant to the Freedom of Information Act, filed with the Procurement Policy Board, and shall be incorporated as a material term of the contract. Furthermore, pursuant to Section 5-5, the Procurement Policy Board may review a proposal, bid, or contract and issue a recommendation to void a contract or reject a proposal or bid based on any violation of the Procurement Code or the existence of a conflict of interest as provided in subsections (b) and (d) of Section 50-35.

The financial interests to be disclosed shall include any ownership or distributive income share that is in excess of 5%, or an amount greater than 60% of the annual salary of the Governor, of the offering entity or its parent entity, whichever is less, unless the firm is a publicly traded entity subject to Federal 10K reporting, in which case it may submit its 10K disclosure in place of the prescribed disclosure. If a firm is a privately held entity that is exempt from Federal 10K reporting, but has more than 100 shareholders, it may submit the information that Federal 10K companies are required to report, and list the names of any person or entity holding any ownership share that is in excess of 5%. The disclosure shall include the names, addresses, and dollar or proportionate share of ownership of each person making the disclosure, their instrument of ownership or beneficial relationship, and notice of any potential conflict of interest resulting from the current ownership or beneficial interest of each person making the disclosure having any of the relationships identified in Section 50-35 and on the disclosure form. **The current annual salary of the Governor is \$177,412.00.**

In addition, all disclosures shall indicate any other current or pending contracts, proposals, leases, or other ongoing procurement relationships the offering entity has with any other unit of state government and shall clearly identify the unit and the contract, proposal, lease, or other relationship.

2. Disclosure Forms. Disclosure Form A is attached for use concerning the individuals meeting the above ownership or distributive share requirements. Subject individuals should be covered each by one form. In addition, a second form (Disclosure Form B) provides for the disclosure of current or pending procurement relationships with other (non-IDOT) state agencies and a total ownership certification. **The forms must be included with each statement of interest.**

C. Disclosure Form Instructions

Form A: Instructions for Financial Information & Potential Conflicts of Interest

If the firm is a publicly traded entity subject to Federal 10K reporting, the 10K Report may be submitted to meet the requirements of Form A. If a firm is a privately held entity that is exempt from Federal 10K reporting, but has more than 100 shareholders, it may submit the information that Federal 10K companies are required to report, and list the names of any person or entity holding any ownership share that is in excess of 5%. If a firm is not subject to Federal 10K reporting, the firm must determine if any individuals are required by law to complete a financial disclosure form. To do this, the firm should answer each of the following questions. A "Yes" answer indicates Form A must be completed. If the answer to each of the following questions is "No", then the NOT APPLICABLE STATEMENT on Form A must be signed and dated by a person that is authorized to execute contracts for the offering firm. Note: These questions are for assistance only and are not required to be completed.

1. Does anyone in your organization have a direct or beneficial ownership share of greater than 5% of the offering entity or parent entity?
YES ☐ NO ☐

2. Does anyone in your organization have a direct or beneficial ownership share of less than 5%, but which has a value greater than 60% of the annual salary of the Governor? YES ☐ NO ☐
3. Does anyone in your organization receive more than 60% of the annual salary of the Governor of the offering entity's or parent entity's distributive income? YES ☐ NO ☐

(Note: Distributive income is, for these purposes, any type of distribution of profits. An annual salary is not distributive income.)

4. Does anyone in your organization receive greater than 5% of the offering entity's or parent entity's total distributive income, but which is less than 60% of the annual salary of the Governor? YES ☐ NO ☐

(Note: Only one set of forms needs to be completed per person per statement of interest even if a specific individual would require a "Yes" answer to more than one question.)

A "Yes" answer to any of these questions requires the completion of Form A. The firm must determine each individual in the offering entity or the offering entity's parent company that would cause the questions to be answered "Yes". Each form must be signed and dated by a person that is authorized to execute contracts for your organization. **Photocopied or stamped signatures are not acceptable.** The person signing can be, but does not have to be, the person for which the form is being completed. The firm is responsible for the accuracy of any information provided.

If the answer to each of the above questions is "No", then the NOT APPLICABLE STATEMENT of Form A must be signed and dated by a person that is authorized to execute contracts for your company.

RETURN WITH STATEMENT OF INTEREST

Form B: Instructions for Identifying Other Contracts & Procurement Related Information

Disclosure Form B must be completed for each statement of interest submitted by the offering entity. *Note: Checking the NOT APPLICABLE STATEMENT on Form A does not allow the firm to ignore Form B. Form B must be completed, checked, and dated or the firm may be considered nonresponsive and the statement of interest will not be accepted.*

The firm shall identify, by checking "Yes" or "No" on Form B, whether it has any pending contracts (including leases), statements of interest, bids, proposals, or other ongoing procurement relationship with any other (non-IDOT) state of Illinois agency. If "No" is checked, the firm only needs to complete the check box on the bottom of Form B. If "Yes" is checked, the firm must identify each such relationship by listing the state of Illinois agency name and other descriptive information such as project number, title, contract, etc.

The Salukis Greenway

The Vision: A continuous, regional multi-use trail along the IL 13 corridor providing recreation and alternative transportation opportunities to the communities of Carbondale and Murphysboro.

The Salukis Greenway is a proposed 5.8 mile Multi-Use Trail that will run generally parallel to IL 13 between Carbondale and Murphysboro. Substantial progress on the trail has been made in recent years with the completion of a segment from Wood Road to Airport Road, including an underpass of IL 13 utilizing the abandoned rail alignment and the completion of a segment from New Era Road to Emerald Lane in Carbondale including a crossing of Little Crab Orchard Creek.

The proposed Salukis Greenway has the potential to be a major attraction for the region as well as a convenient resource for exercise and recreation. The proposed trail will also provide a safe space for non-motorized transportation. Jackson County has high poverty rates and IL 13 (ADT = 16,500 & speed limit= 55 mph) is an important transportation link that hosts many commercial areas and medical facilities where low income workers walk or bike to work or school. This path will help remove pedestrians, wheelchairs, and bicycling from the IL 13 shoulder and will provide a safe transportation alternative for local residents to access jobs, medical appointments or school creating a more equitable transportation infrastructure.

Airport Road to Country Club Road

Preliminary Segment Cost:

- Right of Way – \$50,000 various easements
- Engineering - \$150,000 (Phase I, II, III and PESA)
- Construction - \$800,000
- Total - \$1,000,000
- Match Required – 0% to 20%; ITEP 2020 cycle 14 = very likely 0%

ITEP 2020 Cycle 14 grant program has a new component to the program regarding matching funds as follows: *The local match for those projects in the most high-need communities will have no local match required; those projects in the next group of high-need scores will have 10% local match required. Projects that have high project scores but low scores for the high-need elements will have a 20% local match.*

I think that anything in Jackson County would be high need and therefore the funding would cover 100% the cost of the project. It's based on census tract data for the location of the project. There is a \$2M max per project and the application is due Nov 2.

WHEREAS, The County of Jackson, as Trustee for the Taxing Districts therein, has undertaken a program to collect delinquent taxes and to perfect titles to real property in cases in which the taxes on such real property have not been paid, pursuant to 35ILCS 200/21-90, and
