ACCEPTANCE OF QUALITY BASED SELECTION PROCESS
FOR THE
JACKSON COUNTY HIGHWAY DEPARTMENT**

WHEREAS, The County Board of Jackson County approved a Quality Based Selection Process for the Jackson County Highway Department at its February 18, 2020 regularly scheduled meeting, and

WHEREAS, changes in the Illinois Compiled Statutes and in personnel at the Jackson County Highway Department have prompted the need for changes and updates to the previously adopted process, and

WHEREAS, it is in the best interests of Jackson County to have a Quality Based Selection Process that meets requirements of the Brooks Act (40 U.S.C. §§1101-1104), 23 C.F.R. Part 172 (entitled "Procurement, Management and Administration of Engineering and Design Related Services"), and the Illinois Local Government Professional Services Selection Act (50 ILCS 510).

NOW THEREFORE, BE IT RESOLVED that the County Board of Jackson County hereby replaces and updates the previously approved Quality Based Selection Process approved on February 18, 2020 with the revised Quality Based Selection Process attached hereto as Exhibit A, and

BE IT FURTHER RESOLVED, that the County Board of Jackson County directs the County Board Chairman to indicate approval of this process on behalf of the County of Jackson and directs the County Engineer to follow the revised Quality Based Selection Process in all manners of Engineering and Design Related Services contained herein from this date forward.

This resolution adopted at a regular meeting of the County Board of Jackson County, Illinois, on the 16th day of January, 2024.

Quality Based Selection Process

Introduction and Purpose

These policies and procedures are established as a guide for the preparation, execution and administration of contracts for professional or specialized engineering services that exceed \$40,000 and which are executed in connection with the planning, design, maintenance, repair, and construction of transportation in accordance with the Brooks Act (40 U.S.C. 1101 - 1104), the Illinois Local Government Professional Services Selection Act (50 ILCS 510), and 23 Code of Federal Regulations Part 172 entitled "Procurement, Management, and Administration of Engineering and Design Related Services". The \$40,000 limit shall be increased annually by a percentage equal to the annual unadjusted percentage increase, if any, as determined by the consumer price index-u in accordance with 50 ILCS 510/8 using 2019 as the \$40,000 base year. IDOT shall issue a circular letter annually addressing the CPI-U adjustment. This letter shall be typically issued in February of each year.

The implementation of these procedures will ensure that a qualified Firm is obtained through an equitable selection process and that the prescribed work is properly accomplished in a timely manner and at a fair and reasonable cost.

Jackson County, as a direct recipient and/or sub-recipient of Federal Aid Highway Funds, must comply with all applicable rules and regulations pertaining to the use of said funds. Therefore, Jackson County agrees to maintain written policies and procedures for the procurement, management, and administration of professional and specialized engineering services contracts, including those related to planning, studies, environmental analyses, engineering and design to the extent that engineering services are specified in the scope of work. Our written policies and procedures as describe herein for QBS will meet the requirements of 23 CFR 172 and the Brooks Act.

Certification and Prequalification

Jackson County is committed to ensuring that all qualified firms have the opportunity to participate in professional and specialized engineering services contracts.

Prequalification

IDOT maintains a List of Prequalified Private Consulting Firms (The Directory of Firms) that have been approved to perform professional or specialized services. Firms must be prequalified to perform the specific discipline of work or service it will be performing on a project for Jackson County. Prequalification by IDOT does not relieve the Firm of responsibility for determining if sub-consultants they may select are, in fact, qualified to perform the work for which it is engaged.

A Firm is required to be prequalified prior to submitting its Letter of Interest for any advertised project.

Procurement Methods

The procurement of professional and specialized engineering services funded by either State or Federal Aid Highway Program funds shall be conducted in accordance with one of three (3) methods:

1. Competitive negotiation (qualifications-based selection) procurement.

Jackson County will use a competitive negotiation method for the procurement of engineering and design related services when either State or Federal Aid Highway Program funds in excess of \$40,000 are involved in the contract. The \$40,000 limit shall be increased annually by a percentage equal to the annual unadjusted percentage increase, if any, as determined by the consumer price index-u in accordance with 50 ILCS 510/8 using 2019 as the \$40,000 base year. IDOT shall issue a circular letter annually addressing the CPI-U adjustment. This letter shall be typically issued in February of each year. The solicitation, evaluation, ranking, selection, and negotiation will comply with the qualification-based selection procurement procedure outlined below for selection of architectural and engineering services.

The only exception would apply when State, TBP and Local Funding will be utilized for engineering services and Jackson County has a previous existing relationship with any firm that performs work in areas that are desired.

2. Non-competitive procurement – EMERGENCY CONDITIONS

When an emergency occurs, these procedures, or portions thereof, may be waived by the County Board Chair or his/her designee. In an emergency, a professional/specialized Firm may be selected, negotiations conducted, and a contract executed at the direction of the County Board Chair or designee as necessary to address the emergency conditions. When Federal-Aid Highway funds are used in the contract, the County Engineer or designee shall submit justification for emergency selection and receive approval from FHWA before proceeding with the procurement of services, if required by FHWA.

3. Non-competitive procurement – SOLE SOURCE

These procedures, or portions thereof, may be waived by the County Engineer, or his/her designee, for the sole source selection of a Firm under any of the following conditions:

- a. Sole source selection may be used when the service is available only from a single source;
- b. Sole source selection may be used after solicitation of a number of sources, competition is determined to be inadequate; or
- c. Sole source selection may be used when it has been determined that there is an emergency which does not permit time to conduct contract negotiations.

Sole source selection may only be used when it is in the public interest and economically advantageous to the County. Selection of a sole source Firm will be contingent upon satisfactory negotiation for the service.

When Federal Aid Funds are involved, the County Engineer must submit justification for sole source selection and receive approval from IDOT and/or FHWA prior to proceeding, if required by IDOT/FHWA.

General QBS Procedure

The following will be the guiding procedures Jackson County will follow in their qualification based selection of engineering service firms as defined in Procurement Method #1 listed above.

1. **Initial Administration** – Jackson County's QBS policy and procedures assigns responsibilities to the following: the County Engineer within the Jackson County Highway Department for the procurement, management, and administration for consultant services.
2. **Written Policies and Procedures** – Jackson County believes their adopted QBS written policies and procedures substantially follow Section 5-5 of the *BLRS Manual* and specifically Section 5-5.06(e), therefore; approval from IDOT is not required; however, if fewer than three consultants submit letters of interest, IDOT approval is required.
3. **Project Description** – Jackson County will use the following five items when developing the project description and may include additional items when unique circumstances exist.
 - Describe in general terms the need, purpose, and objective of the project;
 - Identify the various project components;
 - Establish the desired timetable for the effort;
 - Identify any expected problems;
 - Determine the total project budget.
4. **Public Notice** – Jackson County will post an announcement on our website and/or publish an ad in a newspaper with appropriate circulation. The item will be advertised for at least 14 days prior to the acceptance of proposals, and at least twice in the newspaper and/or on continuous display on our website.
5. **Conflict of Interest** – Jackson County requires consultants to submit a disclosure statement with their procedures. Jackson County requires the use of the IDOT BDE DISC 2 Template as their conflict of interest form.
6. **Suspension and Debarment** – Jackson County will exercise the use of SAM Exclusions, IDOT's CPO's website and the three other state CPO's websites to verify suspensions and debarments actions to ensure the eligibility of firms short listed and selected for projects.
7. **Evaluation Factors** – Jackson County allows the following County Engineer to set the evaluation factors for each project, but must include a minimum of five (5) criterion and stay within the established weighting range.

Project specific evaluation factors will be included at a minimum in the Request for Proposals.

Technical Approach (10-30%)

Firm Experience (10-30%)

Specialized Expertise (10-30%)

Staff Capabilities (Prime/Sub) (10-30%)

Work Load Capacity (10-30%)

Past Performance (10-30%)

In-State or Local Preference *

*Participation of Qualified and Certified DBE Sub-Consultants **

(The combined total of these two items cannot exceed 10%)*

8. **Selection** – Jackson County require a three person selection committee. Typically the selection committee members include the County Engineer, the Engineering Assistant and a representative of the Real Property Committee of the County Board. The selection committee members must certify that they do not have a conflict of interest. Selection committee members are chosen by the County Engineer for each project and may change from time to time. Jackson County will require each member of the selection committee to provide an independent score for each proposal using the criteria established for that selection.

The selection committee members' scores are averaged for a committee score which is used to establish a short list of three firms. The committee score may adjusted by the committee based on

group discussion and information gained from presentations and interviews to develop a final ranking. If there are other firms within 10% of the minimum score, the County Engineer may elect to expand the short list to include more than three firms.

9. **Independent Estimate** – Jackson County will prepare an independent in-house estimate for the project prior to contract negotiation. The estimate is used in the negotiation.
10. **Contract Negotiation** – Jackson County require a three person team to negotiate with firms. Typically, the team will consist of the County Engineer, the Design Engineer and a representative of the Real Property Committee of the County Board. Members of the negotiation team may vary dependent upon the work load that exist at the time of selection.
11. **Acceptable Costs** – Jackson County require the County Engineer to review the contract costs and the indirect cost rates to assure they are compliant with Federal cost principles prior to submission to IDOT.
12. **Invoice Processing** – Jackson County requires the County Engineer on any projects using federal funds to review and approve all invoices prior to payment and submission to IDOT for reimbursement.
13. **Project Administration** – Jackson County requires the County Engineer to monitor work on the project in accordance with the contract. Jackson County's procedures require an evaluation of the consultant's work at the end of each project. These reports are maintained on file with the Jackson County Highway Department office. Jackson County follows IDOT's requirements and the required submission of BLRS Form 05613 to the IDOT district at contract close-out along with the final invoice.

CONSULTANT'S DISCLOSURE STATEMENT

PTB #: _____

Firm Name: _____

RETURN WITH STATEMENT OF INTEREST

DISCLOSURES

- A. The disclosures hereinafter made by the firm are each a material representation of fact upon which reliance is placed should the Department enter into the contract with the firm. The firm further certifies that the Department has received the disclosure forms for each statement of interest.

The IDOT Chief Procurement Officer (CPO) may void the offer or contract if it is later determined that the firm of subconsultant rendered a false or erroneous disclosure. A consultant or subconsultant may be suspended or debarred for violations of the Procurement Code. If a false certification is made by the subconsultant, then the consultant's submitted offer and the executed contract may not be declared void, unless the consultant refuses to terminate the subcontract upon the State's request after a finding that the subconsultant's certification was false.

B. Financial Interests and Conflicts of Interest

1. Section 50-35 of the Illinois Procurement Code provides that all offers of more than \$50,000 and all subconsultant agreements with an annual value of more than 50,000 shall be accompanied by disclosure of the financial interests of the firm. This disclosed information for the successful firm will be maintained as public information, subject to release by request pursuant to the Freedom of Information Act, filed with the Procurement Policy Board, and shall be incorporated as a material term of the contract. Furthermore, pursuant to Section 5-5, the Procurement Policy Board may review a proposal, bid, or contract and issue a recommendation to void a contract or reject a proposal or bid based on any violation of the Procurement Code or the existence of a conflict of interest as provided in subsections (b) and (d) of Section 50-35.

The financial interests to be disclosed shall include any ownership or distributive income share that is in excess of 5%, or an amount greater than 60% of the annual salary of the Governor, of the offering entity or its parent entity, whichever is less, unless the firm is a publicly traded entity subject to Federal 10K reporting, in which case it may submit its 10K disclosure in place of the prescribed disclosure. If a firm is a privately held entity that is exempt from Federal 10K reporting, but has more than 100 shareholders, it may submit the information that Federal 10K companies are required to report, and list the names of any person or entity holding any ownership share that is in excess of 5%. The disclosure shall include the names, addresses, and dollar or proportionate share of ownership of each person making the disclosure, their instrument of ownership or beneficial relationship, and notice of any potential conflict of interest resulting from the current ownership or beneficial interest of each person making the disclosure having any of the relationships identified in Section 50-35 and on the disclosure form. **The current annual salary of the Governor is \$177,412.00.**

In addition, all disclosures shall indicate any other current or pending contracts, proposals, leases, or other ongoing procurement relationships the offering entity has with any other unit of state government and shall clearly identify the unit and the contract, proposal, lease, or other relationship.

2. Disclosure Forms. Disclosure Form A is attached for use concerning the individuals meeting the above ownership or distributive share requirements. Subject individuals should be covered each by one form. In addition, a second form (Disclosure Form B) provides for the disclosure of current or pending procurement relationships with other (non-IDOT) state agencies and a total ownership certification. **The forms must be included with each statement of interest.**

C. Disclosure Form Instructions

Form A: Instructions for Financial Information & Potential Conflicts of Interest

If the firm is a publicly traded entity subject to Federal 10K reporting, the 10K Report may be submitted to meet the requirements of Form A. If a firm is a privately held entity that is exempt from Federal 10K reporting, but has more than 100 shareholders, it may submit the information that Federal 10K companies are required to report, and list the names of any person or entity holding any ownership share that is in excess of 5%. If a firm is not subject to Federal 10K reporting, the firm must determine if any individuals are required by law to complete a financial disclosure form. To do this, the firm should answer each of the following questions. A "Yes" answer indicates Form A must be completed. If the answer to each of the following questions is "No", then the **NOT APPLICABLE STATEMENT** on Form A must be signed and dated by a person that is authorized to execute contracts for the offering firm. Note: These questions are for assistance only and are not required to be completed.

1. Does anyone in your organization have a direct or beneficial ownership share of greater than 5% of the offering entity or parent entity?
YES ☐ NO ☐

2. Does anyone in your organization have a direct or beneficial ownership share of less than 5%, but which has a value greater than 60% of the annual salary of the Governor? YES ☐ NO ☐
3. Does anyone in your organization receive more than 60% of the annual salary of the Governor of the offering entity's or parent entity's distributive income? YES ☐ NO ☐

(Note: Distributive income is, for these purposes, any type of distribution of profits. An annual salary is not distributive income.)

4. Does anyone in your organization receive greater than 5% of the offering entity's or parent entity's total distributive income, but which is less than 60% of the annual salary of the Governor? YES ☐ NO ☐

(Note: Only one set of forms needs to be completed per person per statement of interest even if a specific individual would require a "Yes" answer to more than one question.)

A "Yes" answer to any of these questions requires the completion of Form A. The firm must determine each individual in the offering entity or the offering entity's parent company that would cause the questions to be answered "Yes". Each form must be signed and dated by a person that is authorized to execute contracts for your organization. **Photocopied or stamped signatures are not acceptable.** The person signing can be, but does not have to be, the person for which the form is being completed. The firm is responsible for the accuracy of any information provided.

If the answer to each of the above questions is "No", then the NOT APPLICABLE STATEMENT of Form A must be signed and dated by a person that is authorized to execute contracts for your company.

RETURN WITH STATEMENT OF INTEREST

Form B: Instructions for Identifying Other Contracts & Procurement Related Information

Disclosure Form B must be completed for each statement of interest submitted by the offering entity. *Note: Checking the NOT APPLICABLE STATEMENT on Form A does not allow the firm to ignore Form B. Form B must be completed, checked, and dated or the firm may be considered nonresponsive and the statement of interest will not be accepted.*

The firm shall identify, by checking "Yes" or "No" on Form B, whether it has any pending contracts (including leases), statements of interest, bids, proposals, or other ongoing procurement relationship with any other (non-IDOT) state of Illinois agency. If "No" is checked, the firm only needs to complete the check box on the bottom of Form B. If "Yes" is checked, the firm must identify each such relationship by listing the state of Illinois agency name and other descriptive information such as project number, title, contract, etc.

RESOLUTION NO. 2024-49

AGREEMENT TO PROVIDE BROADBAND SERVICE IN JACKSON COUNTY

This agreement to extend West Kentucky & Tennessee Telecommunications Cooperative's (WK&T) fiber network facilities in Jackson County is entered into this the 18th day of June, 2024 ("Effective Date") by and between the Jackson County, a body politic and corporate, Jackson County, Illinois ("the County") and WK&T, having its headquarters office at 100 WK&T Technology Drive, Mayfield, Kentucky 42066. Jackson County and WK&T are sometimes referred to collectively as the "Parties" or individually as a "Party".

WHEREAS, WK&T will be the grant applicant for various broadband expansion and technology development grants and financial assistance offered through the State of Illinois and the federal government to build out or expand WK&T's broadband network, including its fiber facilities, into the unserved and underserved areas of Jackson County.

WHEREAS, the County desires WK&T to expeditiously provide fiber-to-the premises broadband internet access service to unserved and underserved locations in Jackson County. Fiber-to-the premises service provides internet access at speeds of 2 gigabit or more, both upstream and downstream and is faster and more reliable than any other type of broadband service.

WHEREAS, the County agrees to pay WK&T up to five million dollars (\$5,000,000) in committed American Rescue Plan Act (ARPA) funds that are received by the County as aid to the necessary construction costs to provide such fiber-to-the premises broadband internet access to be matched by WK&T for state and federal broadband grant application matching fund requirements.

WHEREAS, WK&T will use its best efforts to pursue any available grant funding to expand its network into the remaining underserved areas of the County for the term of this agreement as identified by the map used by each respective grant program.

WHEREAS, the County approved Resolution 2023-76 on August 16, 2023, to approve a partnership with WK&T to seek and apply for grant funds related to communications infrastructure and broadband networks and to approve the expenditure of up to five million dollars (\$5,000,000) in committed funds under the American Rescue Plan Act for State and federal broadband grant application matching fund requirements.

NOW, THEREFORE, in consideration of the recitals stated above, which are incorporated into the terms of this Agreement, the mutual covenants, terms, and conditions herein contained, the Parties do hereby mutually covenant and agree as follows:

1. Definitions

1.1 WK&T's "broadband network" refers to a dedicated, 100% fiber-to-the-premises network and related equipment used by WK&T to provide broadband internet access service at speeds of 2 gigabit or more in both directions and includes a Network Termination Device ("NTD"), such as an Optical Network Terminal or other similar device, located on the premises of each end user.

1.2 "Underserved" locations and "unserved" locations are areas lacking broadband access that meet the then current FCC definition of underserved and unserved.

2. Scope of Agreement

2.1 This Agreement sets forth the terms by which WK&T, using governmental grant funds it has obtained, along with the ARPA funds received by the County to be contributed by the County, agrees to build out and expand its broadband network into underserved/unserved areas of the County and will provide fiber-to-the-premises internet access service to locations identified by the map used by each respective grant program. The facilities installed to expand WK&T's broadband network under this Agreement shall be considered permanent and shall not be removed by WK&T. Those unserved and underserved locations that are reached by this expanded broadband network shall continue to have access to WK&T's expanded network facilities going forward beyond the term of this Agreement.

WK&T's build out and expansion plan of its broadband network shall be submitted to the County for its approval and consent. This plan will include project cost, total miles, and number of locations passed. The County's approval shall be given to the submitted plan to the extent it is shown by WK&T that it meets the objectives of providing internet access to unserved and underserved areas of the County in an economical and equitable manner. The build-out and expansion of the broadband network shall proceed in accordance with this approved plan.

2.2 The term of this Agreement shall begin on the Effective Date and terminate two years from the Effective Date but shall automatically extend for additional six (6) month terms until the grant monies received by WK&T for its broadband network build out and expansion have been expended or otherwise exhausted by WK&T in the build out and expansion of its broadband network. During this term, Jackson County Board agrees to partner with WK&T to seek and apply for grants related to communications infrastructure and broadband networks development specifically addressing the unserved and underserved areas of the County. WK&T's indemnification obligations and the fiber lease provisions under Section 2.91 under this Agreement shall extend beyond the term of this Agreement. All work shall be completed in the time frame authorized by the grant monies obtained to fund such expansion of the broadband network.

2.25 In the event of the failure of either Party to perform or observe any material term or covenant in this Agreement, or in the event of a breach of contract, or failure to follow the material provisions of any grants obtained for the contemplated broadband network build out and expansion, or other default in any responsibility or obligation under this Agreement, the non-breaching Party may terminate the Agreement by giving a notice of termination to the breaching Party, which termination shall become effective unless the breaching Party cures the breach within thirty (30) days of giving the notice of termination.

2.3 During the term of this agreement, WK&T will pursue all agreed upon grant opportunities available in an effort to secure grant funding to pay for the cost to expand WK&T's fiber network to underserved/unserved and grant eligible locations as identified by the map used by each respective grant program.

2.4 Should WK&T be successful in securing grant funding in the future, the intent of the Parties is that these build-out projects will be deemed completed according to the terms of the grant agreement.

2.5 Should WK&T be successful in securing grant funding in the future, WK&T agrees to abide by all terms of the awarded grant agreement(s) with the granting agency or agencies.

2.6 In circumstances where service is requested at a location in the grant area that requires a drop line of more than 2,000 feet from a fiber mainline, WK&T will provide service but will require an additional installation charge. This charge shall not exceed actual cost if using contract labor, or if using WK&T personnel, its then current labor and material rates.

2.7 Intentionally left blank.

2.8 WK&T will provide a customer service location in Jackson County upon achieving a 40% penetration of active broadband customers at fiber locations passed. WK&T shall provide quarterly reporting to the County on the build out and expansion of the broadband network to monitor progress and ensure that the objectives of the Agreement are being met.

2.9 Should WK&T determine that some unserved/underserved locations in the County cannot be served by fiber due to cost, but could be served by fixed wireless service, WK&T will consider a partnership with independent local fixed wireless providers first.

2.91 WK&T understands that the county wishes to connect all County buildings and other government locations in the WK&T network footprint. For the provision of ethernet connectivity, the County government location must be in the grant boundary. WK&T will provide free 1 Gbps symmetrical service to up to 15 locations of the County's choosing for 10 years. WK&T will also provide free 1 Gbps VLAN at each of these same locations for 10 years.

All other locations will be billed at current WK&T business rates. The County will provide their own equipment and security. WK&T will provide a high-speed fiber connection.

2.92 Jackson County will provide available information and will participate and/or assist in community education efforts to assist in WK&T's efforts to obtain property easement rights necessary to build out and expand its broadband network contemplated under this Agreement. The County may also, in its sole and absolute discretion, provide additional assistance in acquiring these property easement rights. It is understood by the Parties that WK&T shall be solely responsible for the negotiation of and acquisition of the required property easements under this Agreement.

2.93. WK&T acknowledges and agrees that all funds spent under this Agreement and all work performed in the build out and expansion of its broadband network into the County shall be in conformance and with all requirements of the grants received by WK&T for this purpose under federal and state law.

2.94. WK&T acknowledges and agrees that all ARPA funds provided by the County under this Agreement shall only be used for those expenditures authorized under the American Rescue Plan Act and any other applicable federal or State regulation or law.

2.95. The County shall not in any way be responsible for the operations and conduct of WK&T in the performance of any of the work and other necessary acts to be performed under this Agreement in the build out and expansion of its broadband network.

2.96. WK&T shall provide to the County, upon reasonable notice, access to and the right to examine such books and records of WK&T in regard to the work and services performed under this Agreement in the build out and expansion of its broadband network throughout the County until the grant is closed out and accepted by the granting body and will make such reports to the County as the County may reasonably require so that the County may assess compliance with the terms of this Agreement and any governmental reporting or compliance checks the County must make in regard to the expenditure of the ARPA funds provided to WK&T under this Agreement.

3. Payment

3.1 Jackson County and WK&T will share in equal parts any required match for any future grant award subject to the County's cap of up to \$5,000,000 of ARPA funds received by the County. Notwithstanding any contrary language in this Agreement, the County's agreement to contribute matching funds under this Agreement may be limited to ARPA funds the County commits up a maximum of \$5,000,000.

3.2 The County will pay WK&T 50% of the match within 90 days of WK&T being formally notified of the grant award requiring said match of grant funds.

3.3 The County will pay WK&T the remainder 50% of the match when WK&T files the closing documents with the granting agency, indicating the completion of the build.

3.4 Should the County wish to advance its 50% of the match to WK&T prior to completion of the build, the County may do so at its discretion.

4. Warranties

WK&T warrants that the equipment, installation and operation of its broadband network and related equipment, including the network terminal devices, shall meet commercial industry standards for the provision of broadband service throughout the State of Illinois and the broadband equipment shall be of good quality and new and free from defects in material and workmanship.

5. Insurance Indemnification and Limitation of Liability

5.0. WK&T will procure and maintain for the duration of the Agreement insurance against claims for injuries to persons, damage to property and/or other applicable damages that may arise in connection with the performance of work and/or services under this Agreement, including (1) Commercial General Liability Insurance; (2) Workers' Compensation and Employers Liability Insurance; (3) and Comprehensive Automobile Liability Insurance in amounts of coverage acceptable to the County prior to commenced of any work on the contemplated build out and expansion of the broadband network. The Commercial General Liability Insurance and the Comprehensive Automobile Liability Insurance policies shall be endorsed to name Jackson County as an additional insured. These policies shall state that it is primary and non-contributory insurance as to all additional insureds. WK&T shall further cause contractual liability endorsements to be issued on these policies to include under the coverages therein an extended obligation on the part of the insurers to insure against WK&T's contractual liability hereunder and to indemnify the County and its officers, employees, and agents against loss, liability, costs, expenses, attorneys' fees and court costs.

5.1 To the fullest extent permitted under Illinois law, WK&T shall indemnify, defend and hold harmless the County (including its officers, employees and agents) from all liabilities, actions, costs (including reasonable attorneys' fees and cost of experts), reimbursement requests, claims and liabilities of any character (collectively "Damages") caused by, resulting from, arising out of or occurring in connection with any act or omission by WK&T, any of its contractors or subcontractors, anyone directly or indirectly employed by or engaged by any of them, or anyone for whose acts any of them may be liable, arising out of or in connection with WK&T's performance of any act or omission under the terms of this Agreement associated with the build out and expansion of its broadband network, including the misappropriation of any

governmental grant funds, which result from WK&T's negligence, intentional or willful misconduct, breach of this Agreement, lack of adequate regulatory or other violation of any law, rule or regulation, or other wrongful conduct involving the performance of any act or duty under this Agreement. Under no circumstances shall WK&T's indemnification obligations hereunder apply to any Damages caused by the negligence, willful and/or intentional misconduct, breach of applicable law, or other wrongful act or omission by any of the County Indemnitees.

5.2 In all instances in which WK&T ("Indemnitor") is obligated to indemnify the County ("Indemnatee") as provided for in this Agreement, (i) Indemnatee shall give Indemnitor written notice of all claims, damage, losses, suits and any other event which is in any way related to or asserted by Indemnatee as a basis for such obligation, which notice shall be given immediately after Indemnatee becomes aware thereof, (ii) Indemnitor shall have the sole right to control the defense of such matter and the sole right to determine the disposition of such matter; however, the Indemnitor will not enter into any settlement that imposes any liability or obligation on the Indemnatee without the Indemnatee's prior written consent, and (iii) Indemnatee shall furnish such available information and assistance as may be required by the Indemnitor to assist in disposition of such matter and no disposition or settlement shall be made by Indemnatee of any matter for which a claim or indemnification or to be held harmless will be made, without the prior written consent of Indemnitor, which shall not be unreasonably withheld, delayed or denied.

5.3 Notwithstanding any provision of this Agreement to the contrary, neither Party shall be liable to the other for any special, incidental, indirect, punitive or consequential damages, whether foreseeable or not, arising out of, or in connection with such Party's failure to perform its respective obligations or breach of its respective representations hereunder, including, but not limited to, damage or loss of property or equipment, loss of profits or revenue, costs of capital, cost of replacement services (whether arising out of transmission interruptions or problems, any interruption or degradation of service or otherwise), or claims of licensees, in each case whether occasioned by any construction, reconstruction, relocation, repair or maintenance performed by, or failed to be performed by, the other Party or any other cause whatsoever, including breach of contract, breach of warranty, negligence, or strict liability, all claims with respect to which such special, incidental, indirect, punitive or consequential damages are hereby specifically waived.
