## **Independent Auditor's Report**

To the County Board  
Jackson County, Illinois  
Murphysboro, Illinois

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Jackson County, Illinois (the "County"), as of and for the year ended November 30, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**FILED**  
NOV 23 2022

*Frank L. Bynum*  
COUNTY CLERK  
JACKSON COUNTY CLERK'S OFFICE

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Jackson County, Illinois, as of November 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States.

### ***Emphasis of Matter***

As discussed in Note 1 to the financial statements, the County adopted accounting guidance GASB Statement No 84, Fiduciary Activities, during the year ended November 30, 2021. Our opinions are not modified with respect to this matter.

### **Other Matters**

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States require that the items listed in the table of contents as required supplementary information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's financial statements as a whole. The supplementary information as noted in the table of contents is presented for purposes of additional analysis and is also not a required part of the financial statements. The supplementary information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the supplementary information is fairly stated in all material respects in relation to the financial statements as a whole.

COUNTY CLERK  
JACKSON COUNTY CLERK'S OFFICE

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October 27, 2022, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the County's internal control over financial reporting and compliance.

### Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended November 30, 2021

Net change in fund balance - governmental funds	\$ 1,723,434
Amounts reported for governmental activities in the statement of net position are different because:	
In the statement of activities, postretirement obligations, net pension obligations, and deferred sources are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). This year net pension liabilities and related deferred outflows exceed the amount paid by.	(518,687)
 Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their useful lives as depreciation expense. Donated capital assets are only reported in the statement of activities. This is the amount by which depreciation expense exceeds newly capitalized fixed assets in the period.	
Contributed capital related to capital asset purchases	461,346
Loss on disposal of capital assets	(21,224)
 The issuance of long-term debt and related costs are shown on the fund financial statements as other financing sources (uses) and current expenditures, but are recorded as long-term liabilities on the government-wide statements	
Bonds payable and capital lease principal repayment	2,511,752
In the statement of activities, net pension obligations, and deferred resources are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). This year net pension liabilities and related deferred resources exceed the amount paid by.	843,321
Vacation and compensated pay for employees is expensed in the statement of activities. However, since these amounts will not be paid from current resources, this expense is not recorded in the governmental funds. This is the amount by which vacation and compensated pay increased over the prior period.	(118,085)
Change in net position of governmental activities	\$ 3,932,318

### Note 1: Summary of Significant Accounting Policies

#### Introduction

The financial statements of Jackson County, Illinois (the "County") with the county seat located in Murphysboro, Illinois have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the County are described below.

#### Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

#### Financial Reporting Entity

The County is governed by a fourteen-member County Board. The accompanying financial statements present the primary government, organizations for which the primary government is financially accountable, and other organizations for which the primary government is not accountable, but for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials are financially accountable or whose exclusion would render the financial statements misleading because of nature and significance of their relationship. Based on these criteria, the County is considered a primary government and there are no other organizations or agencies whose financial statements should be combined and presented with these financial statements.

#### Basis of Presentation

##### Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) display information about the reporting government as a whole. These statements include all the financial activities of the County, except for the fiduciary funds. The fiduciary funds are only reported in the statement of fiduciary net position at the fund financial statement level. The governmental activities column incorporates data from governmental funds and internal service funds. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

## Notes to Financial Statements

---

### Note 1: Summary of Significant Accounting Policies (Continued)

#### Basis of Presentation (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients for goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

The County applies restricted resources first when an expense is incurred for a purpose for which both restricted and unrestricted net position are available. Depreciation expense that can be specifically identified by function is included in the direct expenses of each function. Interest on general long-term debt is considered an indirect expense and is reported separately on the statement of activities.

#### Fund Financial Statements

The fund statements provide information about the County's funds, including fiduciary funds. Separate statements for each fund category—governmental, proprietary, and fiduciary—are presented. The emphasis of fund financial statements is on major funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as other governmental funds.

**General Fund** – The General Fund is used to account for all financial resources of the County except those which are required to be accounted for in another fund. This fund is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The services which are administered by the Department and accounted for in the general fund include general control and administration, public safety, and judiciary and court related expenditures.

**County Health Fund** – This fund is used to account for the County's Health Department and related operations.

The County reports the following major enterprise fund:

**Ambulance Service Fund** - This fund accounts for the ambulance service activities provided to the public.

#### Fiduciary Fund Type

**Custodial Funds** - Custodial funds are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds.

## Notes to Financial Statements

---

### Note 1: Summary of Significant Accounting Policies (Continued)

#### Basis of Presentation (Continued)

During the course of operations, the County has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

#### Measurement Focus and Basis of Accounting

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. For this purpose, the County generally considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The County has elected to take exception to this assumption for revenue remitted by the State. Due to the State being late with payments, the County considers those amounts applicable to the current fiscal year to be available as it is vouchered by the State and will be paid after the 60 day period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

## Notes to Financial Statements

---

### Note 1: Summary of Significant Accounting Policies (Continued)

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

#### Budgetary Basis of Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles and a projection of the revenue and the proposed itemized appropriations of the ensuing fiscal year. All appropriations cease with the close of the fiscal year.

The appropriated budget is prepared by fund, function, and department. Transfers of appropriations require the approval of the Board. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level. Appropriations in all budgeted funds lapse at the end of the fiscal year.

#### Cash and Cash Equivalents

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, certificates of deposit, and short-term investments with original maturities of three months or less from the date of acquisition.

The cash balances of most County funds are pooled and invested. Each fund's share of the investment pool is reflected on its respective balance sheet.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices.

The County is a participant in the Local Government Investment Pool (LGIP) which is authorized in Illinois Compiled Statutes 30 ILCS 235 under the Public Funds Investment Act. The LGIP is not registered with the Securities Exchange Commission as an investment company. The LGIP operates and reports to participants on the amortized cost basis. LGIP pool shares are bought and redeemed at \$1 based on the amortized cost of the investments in LGIP. The investment is not subject to the fair value hierarchy disclosures.

#### Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A three-tier hierarchy prioritizes the inputs used in measuring fair value. These tiers include Level 1, defined as quoted market prices in active markets for identical assets or liabilities; Level 2, defined as inputs other than quoted market prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs' therefore, requiring an entity to develop its own assumptions. The asset's or liability's fair value measurement within the hierarchy is based on techniques that maximize the use of relevant observable inputs and minimizes the use of unobservable inputs.

## Notes to Financial Statements

---

### Note 1: Summary of Significant Accounting Policies (Continued)

#### Accounts Receivable

Receivables at November 30, 2021, for the Ambulance Services Fund are net of allowance for uncollectible. The allowance for uncollectible in the Ambulance Services Fund was \$2,480,943 at November 30, 2021.

#### Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method and consist of deed stamps. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

#### Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (i.e., roads, bridges and other similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets for the Highway Fund are defined as assets with an initial, individual cost of more than \$20,000 and an estimated useful life in excess of one year. Donated assets are recorded at their acquisition value of the date of donation.

Capital assets for Governmental and Enterprise Funds are defined by the County as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. Such assets are valued at cost or estimated original cost. Depreciation has been provided using the straight-line method over the estimated useful life of each asset.

Land and construction in progress are not depreciated. The other property, plant, equipment, and infrastructure of the primary government are depreciated using the straight line method over the following estimated useful lives:

Land improvements	25-40 years
Buildings	20-40 years
Machinery & equipment	5-10 years
Infrastructure	40-50 years

#### Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditures) until then. In addition to liabilities, the statement of net position will sometimes report a separate section, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

## Notes to Financial Statements

---

### Note 1: Summary of Significant Accounting Policies (Continued)

#### Compensated Absences

The County accrues accumulated unpaid sick leave, vacation days, and associated employee- related costs when earned (or estimated to be earned) by the employee. The noncurrent portion (the amount estimated to be used in subsequent fiscal years) for governmental funds is maintained separately and represents a reconciling item between the fund and government-wide presentations.

#### Vacation

As of November 30, 2021, the County has an estimated liability to its employees for accumulated vacation days in the amount of \$848,992 for its governmental activities and \$85,320 for its business-type activities

#### Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Illinois Municipal Retirement Fund (IMRF) and additions to/deductions from IMRF's fiduciary net position have been determined on the same basis as they are reported by IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### Other Post-Employment ("OPEB")

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB expense, information about the fiduciary net position of the County's OPEB plan and additions to/deductions from this fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, OPEB payments (including refunds of employee contributions) are recognized when due and payable in accordance with the OPEB terms. Investments are reported at fair value.

#### Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net position is reported as restricted when there are limitations imposed on its use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

When both restricted and unrestricted resources are available for use, it is the County's policy to use externally restricted resources first.

## Notes to Financial Statements

---

### Note 1: Summary of Significant Accounting Policies (Continued)

#### Fund Balances

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources. The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form – prepaid items or inventories or (b) legally or contractually required to be maintained intact.

The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned, and unassigned.

*Restricted fund balance:* This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.

*Committed fund balance:* These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances of the County Board – the County's highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the County Board removes the specified use by taking the same type of action that imposed the original commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

*Assigned fund balance:* This classification reflects the amounts constrained by the County's "intent" to be used for specific purposes, but the amounts are neither restricted nor committed. The County Board has the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

*Unassigned fund balance:* This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When both restricted and unrestricted resources are available for use, it is the County's policy to use externally restricted resources first, then unrestricted resources – committed, assigned, and unassigned – in order as needed.

#### Program Revenues

Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

NOV 23 2022

Frank L. Boul  
COUNTY CLERK  
JACKSON COUNTY CLERK'S OFFICE

# Jackson County, Illinois

## Notes to Financial Statements

---

### Note 1: Summary of Significant Accounting Policies (Continued)

#### Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the County's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

#### Fund Balance Flow Assumptions

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

#### Property Taxes

The County's property tax is levied each year on all taxable real property located in the County. Since the 2021 property tax levy is levied to finance the operations of fiscal year 2022, the 2021 property tax is typically recorded as a receivable and the 2021 property tax revenue is unavailable. The 2020 property tax levy is recorded as revenue by the County in accordance with the applicable measurement focus and basis of accounting for fiscal year 2021. The County must file its tax levy by the last Tuesday of December each year. The 2020 levy was approved on November 17, 2020. The 2021 levy was approved on November 16, 2021.

The township assessors are responsible for assessment of all taxable real property within the County. The County Clerk computes the annual tax of each parcel of real property and prepares tax books used by the County Collector as a basis for issuing tax bills to all taxpayers in the County.

Property taxes are collected by the County Treasurer, who remits to the units their respective share of the collections. Taxes levied in 2020 became due and payable in two installments, generally in June and September. The owner of real property on January 1 (lien date) in any year is liable for taxes of that year.

## Notes to Financial Statements

### Note 1: Summary of Significant Accounting Policies (Continued)

#### Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of proprietary and internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### Adoption of GASB Pronouncements

During the fiscal year ended November 30, 2021, the County implemented the following GASB Pronouncements:

GASB Statement No. 84, Fiduciary Activities: As of December 1, 2020, the County implemented GASB Statement No. 84. This Statement establishes new criteria for identifying fiduciary activities that are reported in the fiduciary funds. This Statement also revised the definition and terminology used for activities that were previously classified as agency funds. The County has reclassified several funds as special revenue funds using the GASB Statement No. 84 definitions. See prior period restatement note as it outlines this restatement.

#### Subsequent Events

The County has evaluated subsequent events through October 27, 2022, which is the date the financial statements were available to be issued.

### Note 2: Stewardship, Compliance and Accountability

#### Excess of expenditures over appropriations

For the year ended November 30, 2021, expenditures exceeded appropriations in the following Funds (funds with required legally passed appropriations).

Fund	Amount
General Fund (including sub-funds)	\$ 3,847,225
Debt Service	\$ 2,348,506
County Health	944,575
Mental Health 708 Board	13,115

#### Deficit Fund Equity

At November 30, 2021, there were no funds with a deficit fund balance.

FILED  
NOV 23 2022

COUNTY CLERK  
JACKSON COUNTY CLERK'S OFFICE

# Jackson County, Illinois

## Notes to Financial Statements

### Note 3: Cash Deposits with Financial Institutions

*Custodial credit risk*-deposits. In the case of deposits, this is the risk that in the event of a bank failure, the County's deposits may not be returned to it. The County does have a policy requiring banks to collateralize balances over the FDIC limit. As of November 30, 2021, the County's bank balance was \$44,324,266 which was fully collateralized.

### Note 4: Investments

As of November 30, 2021, the County's investments were as follows (for financial statement purposes, the deposits in the state investment pool are shown as cash and cash equivalents):

Investment Type	Carrying Amount	Fair Value
External investment pool	\$ 15,487,325	\$ 15,487,325

#### Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The County has a specific policy on the interest rate risk at year-end.

Information about the sensitivity of the fair values of the County's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the County's investments by maturity:

Investment Type	Remaining Maturities (in Months)				Total
	12 Months or Less	13-24 Months	25-60 Months		
External investment pool	\$ 15,487,325	\$ -	\$ -	\$ 15,487,325	

#### Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below are the County's investment policy, or debt agreements, and the actual rating as of year-end for each investment type:

Investment Type	Total as of 11/30/2021	AAAm	Unrated
External investment pool	\$ -	\$ 15,487,325	\$ -

### Note 5: Capital Assets (Continued)

The business-type activities capital asset activity for the year ended November 30, 2021, is as follows:

Business-Type activities:	Balance 12/1/2020	Increases	Decreases and Transfers	Balance 11/30/2021
<b>Capital assets, not being depreciated:</b>				
Land	\$ 66,458	\$ -	\$ -	\$ 66,458
<b>Total capital assets, not being depreciated</b>	<b>66,458</b>	<b>-</b>	<b>-</b>	<b>66,458</b>
<b>Capital assets, being depreciated:</b>				
Land improvements	140,684	-	-	140,684
Buildings and improvements	653,763	-	-	653,763
Vehicles and equipment	2,248,855	55,700	-	2,304,555
<b>Total capital assets, being depreciated</b>	<b>3,043,302</b>	<b>55,700</b>	<b>-</b>	<b>3,099,002</b>
<b>Accumulated depreciation:</b>				
Land improvements	(118,538)	(5,628)	-	(124,166)
Buildings and improvements	(627,366)	(11,188)	-	(638,554)
Vehicles and equipment	(1,830,765)	(150,992)	-	(1,981,757)
<b>Total accumulated depreciation</b>	<b>(2,576,669)</b>	<b>(167,808)</b>	<b>-</b>	<b>(2,744,477)</b>
<b>Total capital assets, being depreciated, net</b>	<b>466,633</b>	<b>(112,108)</b>	<b>-</b>	<b>354,525</b>
<b>Business-type activities capital assets, net</b>	<b>\$ 533,091</b>	<b>\$ (112,108)</b>	<b>-</b>	<b>\$ 420,983</b>

Depreciation expense was charged to governmental functions as follows:

Governmental activities:	Amount
General government	\$ 200,966
Public safety	386,693
Public works	1,219,784
Public health	85,472
<b>Total depreciation expense, governmental activities</b>	<b>1,892,915</b>
 <b>Business-type activities -</b>	
Ambulance Service	167,808

### Note 6: Retirement Plans

#### Illinois Municipal Retirement Fund (IMRF)

##### *Plan Description and Benefits*

**Plan description** – The County's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The County's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of an agent multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at [www.imrf.org](http://www.imrf.org).

**Benefits provided** - IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

### Note 6: Retirement Plans (Continued)

#### *Regular Personnel (Non-SLEP)*

**Employees Covered by the Benefit Terms** - At the December 31, 2020 valuation date, the following employees were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	454
Inactive plan member entitled to but not yet receiving benefits	401
Active employees	218
<b>Total</b>	<b>1,073</b>

**Contributions** - As set by statute, the County's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The County's annual contribution rate for calendar year 2020 was 9.32%. For the fiscal year ended November 30, 2021, the County contributed \$1,386,807 to the plan. The County also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

**Net Pension Liability** - The County's Net Pension Liability was measured as of December 31, 2020, and the total pension liability used to calculate the Net Pension Liability was determined by an annual actuarial valuation as of that date.

**Actuarial assumptions** – The following are the methods and assumptions used to determine total pension liability at December 31, 2020:

Actuarial cost method	Entry Age Normal
Asset valuation method	Market Value of Assets
Inflation	2.25%
Salary increases	2.85% to 13.75%, including inflation
Investment rate of return	7.25%
Retirement age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2020 valuation according to an experience study from years 2017 to 2019.
Mortality	For non disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements using scale MP-2020. For Disabled Retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male and Female (both unadjusted) tables, and future mortality improvements using scale MP-2020. For Active Members, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male and Female (both unadjusted) tables, and future mortality improvements using scale MP-2020.

## Notes to Financial Statements

### Note 6: Retirement Plans (Continued)

#### Regular Personnel (Non-SLEP) (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2020:

Asset Class	Portfolio Target Percentage	Long-Term Expected Real Rate of Return
Domestic equity	37 %	5.00 %
International equity	18 %	6.00 %
Fixed income	28 %	1.30 %
Real estate	9 %	6.20 %
Alternative investments	7 %	2.85-6.95 %
Cash equivalents	1 %	0.70 %
Total	100.0 %	

#### Single Discount Rate

A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1) The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2) The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 2.00%, and the resulting single discount rate is 7.25%.

### Note 6: Retirement Plans (Continued)

#### Regular Personnel (Non-SLEP) (Continued)

**Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions - For year ended November 30, 2021,** the County recognized pension expense (income) of \$957,896. At November 30, 2021, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflow of Resources
<i>Deferred amounts to be recognized in pension expense in future periods:</i>		
Difference between expected and actual experience	\$ 465,305	\$ -
Changes in assumptions	-	379,517
Net difference between projected and actual earnings on pension plan investments	-	7,546,990
 Total deferred amounts to be recognized in pension expense in future periods	 465,305	 7,926,507
Pension contributions subsequent to the measurement date	1,302,527	-
 Total deferred amounts related to pensions	 \$ 1,767,832	 \$ 7,926,507

The County reported \$1,302,527 reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the measurement period ending November 30, 2022.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

Year Ending November 30	Net Deferred Outflows (Inflows) of Resources
2022	\$ (2,286,152)
2023	(920,080)
2024	(2,979,132)
2025	(1,275,838)
 Total	 \$ (7,461,202)

#### *Sheriff's Law Enforcements (SLEP):*

**Employees Covered by the Benefit Terms** - At December 31, 2020, the following employees were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	45
Inactive plan member entitled to but not yet receiving benefits	18
Active employees	69
<b>Total</b>	<b>132</b>

**Contributions** - As set by statute, the County's Sheriff's Law Enforcement Plan Members are required to contribute 7.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The County's annual contribution rate for calendar year 2020 was 17.39%. For the fiscal year ended November 30, 2021, the employer contributed \$772,755 to the plan. The County also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

**Net Pension Liability** - The County's Net Pension Liability was measured as of December 31, 2020, and the total pension liability used to calculate the Net Pension Liability was determined by an annual actuarial valuation as of that date.

**Actuarial assumptions** – The following are the methods and assumptions used to determine total pension liability at December 31, 2020:

Actuarial cost method	Entry Age Normal
Asset valuation method	Market Value of Assets
Inflation	2.25%
Salary increases	2.85% to 13.75%, including inflation
Investment rate of return	7.25%
Retirement age	Experience based Table of Rates, specific to the type of eligibility condition, last updated for the 2020 valuation according to an experience study from years 2017 to 2019.
Mortality	For non disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements using scale MP-2020. ### Note 6: Retirement Plans (Continued)

#### *Elected County Officials (ECO)*

**Employees Covered by the Benefit Terms** - At the December 31, 2020 valuation date, the following employees were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	4
Inactive plan member entitled to but not yet receiving benefits	2
Active employees	-
<b>Total</b>	<b>6</b>

**Contributions** - As set by statute, the County's ECO Plan Members are required to contribute 7.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The County's annual contribution rate for calendar year 2020 was 51.82%. For the fiscal year ended November 30, 2021, the employer contributed \$33,878 to the plan. The County also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

**Net Pension Liability** - The County's Net Pension Liability was measured as of December 31, 2020, and the total pension liability used to calculate the Net Pension Liability was determined by an annual actuarial valuation as of that date.

**Actuarial assumptions** – The following are the methods and assumptions used to determine total pension liability at December 31, 2020:

Actuarial cost method	Entry Age Normal
Asset valuation method	Market Value of Assets
Inflation	2.25%
Salary increases	2.85% to 13.75%, including inflation
Investment rate of return	7.25%
Retirement age	Experience based Table of Rates, specific to the type of eligibility condition, last updated for the 2020 valuation according to an experience study from years 2017 to 2019.
Mortality	For non disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements using scale MP-2020. For Disabled Retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male and Female (both unadjusted) tables, and future mortality improvements using scale MP-2020. For Active Members, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male and Female (both unadjusted) tables, and future mortality improvements using scale MP-2020.

#### Single Discount Rate

A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 2.00%, and the resulting single discount rate is 7.25%.

### Note 6: Retirement Plans (Continued)

#### *Elected County Officials (ECO) (Continued)*

**Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions** - For the year ended November 30, 2021, the County recognized pension expense (income) of \$263,927. At November 30, 2021, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflow of Resources
<i>Deferred amounts to be recognized in pension expense in future periods:</i>		
Difference between expected and actual experience	\$ 186,950	\$ -
Changes in assumptions	104	-
Net difference between projected and actual earnings on pension plan investments	- 376,224	376,224
Total deferred amounts to be recognized in pension expense in future periods	187,054	376,224
Pension contributions subsequent to the measurement date	33,877	-
<b>Total deferred amounts related to pensions</b>	<b>\$ 220,931</b>	<b>\$ 376,224</b>

The County reported \$33,877 as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the measurement period ending November 30, 2022.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

Year Ending November 30	Net Deferred Outflows (Inflows) of Resources
2022	\$ 69,349
2023	(49,834)
2024	(148,172)
2025	(60,513)

### Note 6: Retirement Plans (Continued)

**Aggregate Pension Amounts** - At November 30, 2021, the County reported the following from all pension plans:

	IMRF-Regular	IMRF-SLEP	IMRF-ECO	All Pension Plans
Net pension liability/(asset)	\$ (2,673,299)	\$ (225,139)	\$ 257,457	\$ (2,640,981)
Deferred outflows of resources	1,767,832	1,816,604	220,931	3,805,367
Deferred inflows of resources	7,926,507	3,399,260	376,224	11,701,991
Pension expense (income)	957,896	(299,800)	263,927	922,023

### Note 7: Other Postemployment Benefits

**Plan Description.** The County administers a single-employer defined benefit health care plan. The plan provides medical insurance benefits to eligible retirees and their spouses through the County's group medical insurance plan, which covers both active and retired members. The eligibility requirements are based on the minimum requirements of the Illinois Municipal Retirement Fund. If eligible, the retiree may receive medical insurance benefits until the retiree stops paying the medical insurance premiums. The plan does not issue a standalone report.

**Benefits Provided.** The County does not pay any portion of the health insurance premiums for retirees; however, the retired employee receives an implicit benefit of a lower health care premium, which is spread among the cost of active employee premiums. Because the State prohibits local governments from separately rating active employees and retirees, the County charges both groups an equal, blended premium rate. Although both groups are charged the same rate, GAAP requires the actuarial amounts to be calculated using age adjusted premiums that approximate costs for retirees separately from those for active employees. The use of age adjusted premiums results in the inclusion of an implicit rate subsidy in the actuarial accrued liability. However, the County's contributions to the plan are based on actuarial valuations prepared using the blended rate premium that is actually charged.

**Employees Covered by the Benefit Terms.** At November 30, 2021 (most recent actuarial study), the following employees were covered by the benefit terms:

Active employees	347
Inactive employees currently receiving benefits	41
<b>Total</b>	<b>388</b>

### Note 7: Other Postemployment Benefits (Continued)

#### *Total OPEB Liability*

At November 30, 2021, the County's total OPEB Liability of \$13,018,898; the County's total OPEB liability was measured as of November 30, 2021 and was determined by an actuarial valuation as of that date.

*Actuarial Methods and Assumptions.* The total OPEB liability in the November 30, 2021 actuarial valuation (most recent) was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

#### *Actuarial Methods and Assumptions*

Actuarial Cost Method	The Actuarial Cost Method used in this valuation is the Entry Age Normal Actuarial Cost Method. Under this Method, a Normal Cost is developed by spreading the actuarial value of benefits expected to be received by each active participant over the total working lifetime of that participant, from hire to termination, as a level percentage of pay.
	Under GASB 75, the initial unfunded liability at adoption is recognized immediately.
Discount (Interest) Rate	A discount rate of 2.05% was used as of December 1, 2020 and 1.86% as of November 30, 2021.

Salary Increase Salaries are assumed to increase at the rate of 3.5% per annum.

Monthly Health Plan Premium Costs Blended* in effect as of December 1, 2020	<u>Coverage</u>	Monthly Cost*	Monthly Cost*
		Hope 1000	Hope 4000
	Single	\$1,100	\$ 775
	Single + Spouse	2,262	1,564
	Single + Children	2,097	1,370
	Family	2,756	1,935

\* For valuation calculations, blended rates are adjusted to reflect the individual participant age through actuarial rate factors. The factors used are from the Society of Actuaries June 2013 report: "Health Care Costs - From Birth to Death"

Mortality Probabilities of death for participants were according to RP2014 base rates projected to 2020 using scale MP 2020. No additional provision (besides those already embedded) were included or mortality improvements beyond 2020.

## Starting Per Capita Costs Development

Starting per capita costs are based on premium rates. The same rates are charged for actives and pre-Medicare retirees. When an employer provides benefits to both active employees and retirees through the same plan, the benefits to retirees should be segregated and measured independently for actuarial measurement purposes. The projection of future retiree benefits should be based on claims costs, or age-adjusted premiums approximating claims costs, for retirees, in accordance with actuarial standards issued by the Actuarial Standards Board. As such, rates were estimated for retirees as if they were rated on a stand-alone basis. These costs were then disaggregated into age-specific starting costs based on average ages and assumptions on the relationship between costs and increasing age (Morbidity).

Costs for Medicare eligible retirees do not exhibit the active/retiree subsidization as seen for pre-Medicare and are not adjusted. It is assumed that there is no liability to the County for Medicare eligible retirees receiving coverage on a pay-all basis. This treatment follows generally accepted actuarial practice.

*Discount Rate.* The County does not have a dedicated Trust to pay retiree healthcare benefits. Per GASB 75, the discount rate should be a yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher (or equivalent quality on another rating scale).

### Note 9: Risk Management

The County is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. In order to protect against such risks of loss, the County purchases insurance coverage. The maximum deductible in effect through these policies as of November 30, 2021 was \$10,000. During the year ended November 30, 2021, there were no significant reductions in coverage. so, there have been no settlements which have exceeded insurance coverage in the past three years.

For risks of loss related to injuries to employees, the County purchases coverage through the Illinois Counties Risk Management Pool. Potentially the County could be assessed additional premiums for its share of any losses of the pool. Historically, the County has not been assessed any additional premiums.

### Note 10: Long-Term Debt

#### Bonds Payable

On December 30, 2010, the County issued Series 2010A general obligation bonds in the principal amount of \$1,374,000 due annually from December 1, 2011 through December 1, 2035 in installments ranging from \$4,000 to \$85,000. Interest is payable each June 1 and December 1, beginning December 1, 2011. The bonds bear interest rates of 4.00% to 8.00% per annum. These bonds are used to finance the cost of various remodeling, repairs, and rehabilitation of certain County facilities. These bonds were paid off in full in 2021.

On December 30, 2010, the County issued Series 2010B general obligation bonds in the principal amount of \$1,496,000 due annually from December 1, 2011 through December 1, 2035 in installments ranging from \$6,000 to \$115,000. Interest is payable each June 1 and December 1, beginning December 1, 2011. The bonds bear interest rates of 4.20% to 8.00% per annum. These bonds are used to finance the cost of various remodeling, repairs, and rehabilitation of certain County facilities. These bonds were paid off in full in 2021.

On July 15, 2015, the County issued Series 2015 general obligation bonds in the principal amount of \$1,600,000 due annually from December 1, 2016 through December 1, 2025 in installments ranging from \$140,000 to \$180,000 with interest at 2.60% per annum. These bonds are used to provide funds to reimburse Degognia-Foundation Bluff Levee and Drainage District for the cost of levee improvements and related facilities, improvements and costs.

#### Capital Leases

On December 5, 2019, the County entered into an agreement with Lenovo Financial Services for the capital lease of five hardware servers in the total amount of \$192,183 due in monthly installments of \$3,569 from February 19, 2020 through January 19, 2025. The capital lease bears an interest rate of 4.135%.

On May 13, 2021, the County entered into an agreement with Caterpillar Financial Services Corporation for the capital lease of a CAT Model 308 Excavator in the total amount of \$100,043 due in annual installments ranging from \$25,000 to \$26,666 from May 13, 2021 through May 13, 2024.

## Notes to Financial Statements

---

### Note 11: Interfund Transfers

Below are the interfund transfers as of November 30, 2021:

Transfer From	Transfers In	Transfers Out
Major funds:		
General fund	\$ 2,634,978	\$ 633,366
County Health fund	246,186	-
Nonmajor funds	634,000	2,881,798
<b>Total all funds</b>	<b>\$ 3,515,164</b>	<b>\$ 3,515,164</b>

The purpose for the significant transfers to/from other funds are as follows:

- a. \$2,001,612 was transferred from the Retirement IMRF Fund and Social Security Fund to the General Fund to cover payroll costs paid from the General Fund.
- b. \$634,000 was transferred from the Detainee Prisoner Housing Fund to the Debt Service Fund to cover debt service costs.

### Note 12: Contingencies

From time to time, the County is party to other pending claims and legal proceedings. Although the outcome of such matters cannot be forecast with certainty, it is the opinion of management and the County's legal counsel that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the County's financial position or results of operations.

## Notes to Financial Statements

### Note 13: Prior Year Restatement

The County implemented GASB Statement No. 84 for Fiduciary Activities. The County also had several miscellaneous accounting adjustments requiring prior year restatements. As a result, the beginning net position/fund balances were restated as follows:

	Business-Type				
	Governmental Activities	Activities/ Ambulance	Governmental Funds	County General	Court Security
Balance - previous	\$ 34,908,558	\$ 1,780,200	\$ 17,232,443	\$ 4,162,322	\$ (77,512)
Previously reported component units	2,539,185	-	2,539,185	-	-
Capital assets	392,607	(207,549)	-	-	-
Accrued compensated absences	2,646,517	125,537	699,323	535,780	14,009
OPEB liability & related deferred inflows and outflows	2,126,939	(1,040,586)	-	-	-
Health Department net pension liability and related deferred inflows and outflows	(1,107,688)	-	-	-	-
Capital lease payable	(163,663)	-	-	-	-
Property tax receivables	621,585	-	621,585	652,270	-
Previously reported fiduciary funds	1,672,355	-	1,672,355	-	-
Comptroller receivables	176,844	-	176,844	-	-
 Balance - restated	 \$ 43,813,239	 \$ 657,602	 \$ 22,941,735	 \$ 5,350,372	 \$ (63,503)

	Debt Service	County Health	County Highway Fund	County MFT Funds	Township Motor Fuel Tax Fund
Balance - previous	\$ 1,946,198	\$ 2,148,651	\$ 1,227,777	\$ 2,342,627	\$ 1,591,819
Accrued compensated absences	-	81,470	68,064	-	-
Property tax receivables	(20,000)	(10,685)	-	-	-
Comptroller receivables	-	-	-	84,511	92,333
 Balance - restated	 \$ 1,926,198	 \$ 2,219,436	 \$ 1,295,841	 \$ 2,427,138	 \$ 1,684,152

## Notes to Financial Statements

### Note 14: Interfund Receivables and Payables

Below are the interfund balances as of November 30, 2021. Interfund receivables/payables were made to simplify cash flows within the County.

Fund	Interfund Receivable	Interfund Payable
<b>Governmental Activities:</b>		
<b>Major funds:</b>		
County General fund	\$ 5,486,799	\$ 9,949,401
County Health fund	43,622	-
Nonmajor funds	4,287,036	380,612
Business-Type Activities/Ambulance	776,180	263,624
<b>Total</b>	<b>\$ 10,593,637</b>	<b>\$ 10,593,637</b>

The purposes of the significant interfund receivables/payables result from the time lag between the dates that the (1) interfund good and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system and (3) payment between funds are made.

### Note 15: Impact of Pending Accounting Principles

GASB Statement No. 87, *Leases*, improves accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The requirements of this Statement are effective for fiscal years beginning after June 15, 2021. The County has not determined the effect of this Statement.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, which supersedes GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements. This Statement (1) enhances the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) simplifies accounting for interest cost incurred before the end of a construction period. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. The County has not determined the effect of this Statement.

GASB Statement No. 91, *Conduit Debt Obligations*. This Statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. The County has not determined the effect of this Statement.

GASB Statement No. 92, *Omnibus*, improves the consistency of several practice issues that have been identified during implementation and application of certain GASB Statements. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. The County has not determined the effect of this Statement.

### Notes to Financial Statements

---

#### Note 15: Impact of Pending Accounting Principles (Continued)

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, amends certain hedge accounting from GASB Statement No. 53 and variable lease payments in accordance with GASB Statement No. 87. The requirements of this Statement are effective for fiscal years beginning after June 15, 2021. The County has not determined the effect of this Statement.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, provides for more guidance for accounting and financial reporting for availability payment arrangements. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022. The County has not determined the effect of this Statement.

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements (SBITA)*, defines a SBITA, establishes a right-to-use subscription asset and liability, provides the capitalization criteria for outlays other than subscription payments, and requires note disclosures regarding a SBITA. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022. The County has not determined the effect of this Statement.

## Notes to Required Supplementary Information

---

### Note 1: Basis of Accounting

Annual budgets are adopted for all governmental funds using the modified accrual basis of accounting, which is consistent with generally accepted accounting principles.

### Note 2: Excess of Disbursements Over Appropriations

The County's Health Fund had expenditures exceeding appropriations of \$944,575 for fiscal year 2021.

### Note 3: Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2020 Contribution Rate for IMRF\*

#### Valuation date:

Notes:	Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.
<b>Methods and assumptions used to determine 2020 contribution rates:</b>	
Actuarial cost method	Aggregate entry age normal
Amortization method	Level percent of payroll, closed
Remaining amortization period	Non Taxing bodies: 10 year rolling period. Taxing bodies (Regular, SLEP and ECO groups): 23 year closed period until remaining period. Early Retirement Incentive Plan liabilities: a period up to 10 years selected by the Employer upon adoption of ERI.
Asset valuation method	SLEP supplemental liabilities attributable to Public Act 94-712 were financed over 18 years for most employers (three employers were financed over 27 years and four others were financed over 28 years).
Wage growth	5-year smoothed market; 20% corridor
Inflation	3.25%
Salary increases	2.50%
Investment rate of return	3.35% to 14.25%, including inflation
Retirement age	7.25%
Mortality	Experience based table of rates that are specific to the type of eligibility condition. Last updated for the 2017 valuation pursuant to an experience study of the period 2014-2016. For non disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP 2017 (base year 2015). The IMRF specific rates were developed from the RP 2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP 2017 (base year 2015). The IMRF specific rates were developed from the RP 2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP 2017 (base year 2015). The IMRF specific rates were developed from the RP 2014 Employee Mortality Table with adjustments to match current IMRF experience.

#### Other Information:

Notes:	There were no benefit changes during the year.
--------	--

\* Based on Valuation Assumptions used in the December 31, 2018 actuarial valuation.
