### **Official Press Release**

On April 14, 2022, Jackson County Ambulance Service proudly placed in service two brand new 2021 Medix MSV-II 157 ambulances built on Ford F-450 4X4 chassis. The addition of the new ambulances will increase the reliability of service we provide to our community. The ambulances were ordered over one year ago. Supply chain issues because of the COVID-19 pandemic proved problematic for normal order to delivery times.
