- The Board discussed the website requests. They are all for profit companies that want to have their links added to the Mental Health Board website. The Board voiced concerns about the requests not being part of the function of the Board and putting them on the website would look like the Board was endorsing them. The consensus of the Board is to say no to all of the requests. Also, the Board wants to create a guideline for what can be included on the website. Thomas offered to write something and have the Board review it at the next meeting.
